## What Should We Know About Pediatric Hearing Assessment?

Judith Widen, Ph.D.

Hearing & Speech Dept.

Univ. of Kansas Medical Center, Kansas City, KS

This presentation will include a summary of what we do know about behavioral hearing assessment of infants (what works and what does not work, etc) and a discussion of what we do NOT know and probably should.

Arizona State University, College of Liberal Arts & Sciences, Department of Speech and Hearing Sciences is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing

education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

**Prof. Widen**, received her doctoral degree from Univ. of Washington and has worked as a professor at the Univ. of Kansas Medical Center since 1989. As a clinical audiologist, her research interests focus on hearing screening and assessment of infants and children. She served on NIDCD and ASHA work groups on early identification of newborn hearing impairment.

This course is offered for 0.1 ASHA CEUs (Intermediate level, Professional Area).
